Advance bulletin 1971 CENSUS OF CANADA

Bulletin préliminaire RECENSEMENT DU CANADA 1971

LABOUR FORCE BY MARITAL STATUS AND AGE GROUP

This advance report gives the final figures from the 1971 Census for persons 15 years and over showing the number and percentage in the labour force as reported for the week prior to enumeration.

The four tables presented in this report are: Table 1. Population 15 years and over, by sex, showing number and percentage in the labour force by marital status, for Canada and provinces, 1971; Table 2. Population 15 years and over, by sex, showing number and percentage in the labour force by marital status, for census metropolitan areas, 1971; Table 3. Population 15 years and over, by sex, showing number and percentage in the labour force by age groups, for Canada and provinces, 1971; Table 4. Population 15 years and over, by sex, showing number and percentage in the labour force by age groups, for census metropolitan areas, 1971.

Further information concerning the labour force by marital status and by age groups will be available at later dates in the regular volume series of the final reports of the 1971 Census. The purpose of this advance report is to make available summary totals at an earlier date.

All figures in this report have been subjected to the confidentiality procedure introduced in the 1971 Census to prevent the possibility of associating small figures with any identifiable individual. Briefly, it involves the random rounding of all last or unit digits. Since totals are independently rounded, they do not necessarily equal the sum of rounded figures in distributions. Also there may be slight differences between comparable figures in this report and those in other census bulletins. This technique will be described in the reports of the 1971 Census volume series.

Each bulletin of the 1971 Census volume series will include measures of reliability in the form of estimates of the mean square error for sets of characteristics covered in that bulletin. The user interested in obtaining an indication of the reliability of these advance data should refer to the appropriate bulletin in the volume series.

POPULATION ACTIVE SELON L'ÉTAT MATRIMONIAL ET LE GROUPE D'ÂGE

Ce bulletin préliminaire présente les résultats définitifs du recensement de 1971 en ce qui concerne les personnes de 15 ans et plus, selon le nombre d'actifs et le taux d'activité au cours de la semaine précédant le dénombrement.

Les quatre tableaux présentés ici sont: Tableau 1. Population de 15 ans et plus selon le sexe, avec nombre d'actifs et taux d'activité, selon l'état matrimonial, Canada et provinces, 1971; Tableau 2. Population de 15 ans et plus selon le sexe, avec nombre d'actifs et taux d'activité, selon l'état matrimonial, régions métropolitaines de recensement, 1971; Tableau 3. Population de 15 ans et plus selon le sexe, avec nombre d'actifs et taux d'activité, par groupe d'âge, Canada et provinces, 1971; Tableau 4. Population de 15 ans et plus selon le sexe, avec nombre d'actifs et taux d'activité, par groupe d'âge, régions métropolitaines de recensement, 1971.

De plus amples détails sur la population active selon l'état matrimonial et le groupe d'âge paraîtront à une date ultérieure dans la série des volumes du recensement de 1971. L'objet de ce bulletin préliminaire est de communiquer les résultats sommaires le plus tôt possible.

La confidentialité de toutes les données présentées ici est assurée par la méthode utilisée au recensement de 1971 pour interdire la possibilité d'associer des chiffres de faible importance à une personne en particulier. En un mot, cette méthode consiste à arrondir au hasard tous les derniers chiffres, c'est-à-dire les chiffres représentant les unités. Ainsi, tous les chiffres ayant été arrondis individuellement, leur somme ne donne pas nécessairement les totaux indiqués. Il peut également y avoir de légères différences entre des chiffres comparables de ce bulletin et ceux d'autres bulletins du recensement. Une description de cette technique figurera dans les bulletins de la série des volumes du recensement de 1971.

Chaque bulletin de la série des volumes du recensement de 1971 renfermera des mesures de fiabilité sous forme d'estimations de l'erreur quadratique moyenne relativement aux groupes de caractéristiques observées. L'utilisateur désireux de connaître le degré de fiabilité de ces données préliminaires devra consulter le bulletin approprié de la série des volumes.

DEFINITIONS(1)

DÉFINITIONS(1)

Labour force. In the 1971 Census, this refers to non-inmates 15 years and over, who, in the week prior to enumeration, worked for pay or profit, helped in unpaid family work, looked for work, were on temporary lay-off, or had jobs from which they were temporarily absent because of illness, vacation, strike, etc. Persons doing housework in their own home or volunteer work only, are excluded from the labour force. Also excluded are female farm workers who indicated that they helped without pay in a family farm or business for less than 20 hours. It should be noted that there are indications that the labour force counts for Quebec may be somewhat underestimated due to response problems.

Age. Age classifications are based on the number of completed years of age at last birthday prior to June 1, 1971. Respondents were asked to report their month and year of birth which was converted by mechanical means to age at last birthday.

Marital status. Totals shown under the heading "Married" include all married persons whether living together or living apart for any reason unless a divorce has been obtained.

Census Metropolitan Areas. The main labour market of a continuous built-up area having 100,000 population or more.

(1) See the "Dictionary of 1971 Census Terms" which will give an indication, when applicable, as to how the 1971 Census terms compare with similar terms in the 1961 and 1966 Censuses.

Population active. Au recensement de 1971, la population active comprend les non-pensionnaires d'institution de 15 ans et plus qui, au cours de la semaine précédant le recensement, ont travaillé contre rémunération ou en vue d'un bénéfice, sans rémunération dans une entreprise familiale, ont cherché du travail, étaient en congédiement temporaire ou avaient un emploi dont ils étaient temporairement absents à cause d'une maladie, de vacances, d'une grève, etc. Les personnes faisant seulement des travaux ménagers chez elles ou du travail bénévole sont exclues de la population active. Sont également exclues les travailleuses agricoles qui ont indiqué avoir travaillé moins de 20 heures sans rémunération dans une ferme familiale. On doit noter qu'il existe des indications que la population active du Québec, dû à des difficultés d'interprétation des questions, aurait été quelque peu sous-estimée.

Âge. Nombre d'années révolues au dernier anniversaire avant le 1^{er} juin 1971. Les recensés devaient indiquer le mois et l'année de leur naissance; ces renseignements permettaient d'établir l'âge au dernier anniversaire par des moyens mécanographiques.

État matrimonial. Le total "Mariés" comprend toutes les personnes dont le conjoint est vivant, qu'ils vivent ensemble ou non à moins d'avoir obtenu un divorce.

Région métropolitaine de recensement. Le principal marché du travail d'une zone bâtie en continu comptant 100,000 habitants et plus.
